

Adwaita Narayan Behera

Artificial Intelligence & Machine Learning Enthusiast

|adwdaitanarayan8@gmail.com|+917735374305|LinkedIn|Github|Angul, Odisha, India|

PROFILE SUMMARY:

Enthusiastic Computer Science graduate with a strong foundation in Python programming, data structures, and full-stack software development. Experienced in building end-to-end applications, integrating APIs, and developing intelligent automation systems using Python and ML frameworks. Passionate about writing clean, efficient code and contributing to innovative software projects in a collaborative environment.

TECHNICAL SKILLS:

- **Programming Languages:** Python, SQL, HTML, CSS, JavaScript (basics)
- **Frameworks & Libraries:** Flask, Django (basics), TensorFlow, Keras, scikit-learn, Pandas, NumPy
- **Database Systems:** MySQL, SQLite
- **Software Tools:** Git/GitHub, VS Code, Jupyter Notebook
- **Core Competencies:** Object-Oriented Programming (OOP), Data Structures & Algorithms, REST APIs, Debugging, Software Testing

WORK EXPERIENCE:

AI/ML Engineer Intern – [f-ai]

JULY-2025

- Designed Python-based **automation pipelines** for structured data extraction from PDFs.
- Implemented **OCR and API-based systems** to handle large-scale text processing tasks.
- Collaborated on developing **modular and reusable code components** for enterprise automation.
- Fine-tuned **Large Language Models (LLMs)** for domain-specific question answering and text classification tasks.
- Designed and implemented **Retrieval-Augmented Generation (RAG)** systems to enable interactive chat with PDFs.
- **Technologies:** Python, PaddleOCR, PyTesseract, PyMuPDF, LangChain, Hugging Face Transformers, Ollama, TensorFlow, Pytorch, Pandas, FAISS, Git.

PROJECTS:

Odia Alpha-Numeric Character Recognition

Jan 2025 – Apr 2025

- Built an end-to-end image classification app to recognize Odia alphanumeric characters.
- Integrated pre-trained CNN models (ResNet, EfficientNet) and deployed the model using Flask.
- Skills: Python, Flask, TensorFlow, SVM, REST API Development.

Stock Price Prediction

Oct 2024 – Dec 2024

- Developed a time-series forecasting model using LSTM and integrated it into a Flask dashboard.
- Designed data pipelines, preprocessing scripts, and automated visualization modules.
- Performed data preprocessing, feature extraction, and model training using TensorFlow and Keras.
- Skills: Python, TensorFlow, Keras, Flask, Pandas, Matplotlib.

PDF Data Extraction Tool

June 2025 – July 2025

- Engineered a Python tool to extract, parse, and convert PDF content into structured JSON/Excel files.
- Used OCR and NLP for document understanding—demonstrating backend logic and modular coding.
- Skills: Python, PyMuPDF, PaddleOCR, Pandas, OpenPyXL.

EDUCATION:

Bachelor of Technology (B.Tech) in Computer Science and Engineering

2021 – 2025

Government College of Engineering, Kalahandi | CGPA: **8.10**

Higher Secondary Education (Class 12 – Science, CBSE)

2019 – 2021

Jawahar Navodaya Vidyalaya (JNV), Angul | Percentage: **83%**

Secondary Education (Class 10 – CBSE)

2017 – 2019

Jawahar Navodaya Vidyalaya (JNV), Angul | Percentage: **91%**
